## ABOUT US

Health Bondhu Limited is an aggregator platform from where anyone can avail several healthcare services from our designated healthcare partners with special offers, deals, and discounts at a time from one place. Our responsibility is to intercorporate with the several fragmented aspects of the healthcare ecosystem and we are making a path that is reachable by all from a sole platform.

The platform is customer driven as customers can select their services with multiple alternated options according to their convenient time and place. Moreover, customers will be benefited economically if one avails one of our any services or packages in a designated time frame and they can grab the benefit of paying less amount of money through using coupon codes from our designated healthcare partners.

## OUR MISSION

Our Mission is serving a hassle free healthcare service physically or digitally to the customer within their suitable period of time with a minimal price.

## OUR VISION

Our vision is to involve all the fragmented portions of health care aspects under one umbrella and make a digital platform from which each can easily make a tie with others
